MP Sonic
Welding and cutting system

MSP-JS20150, with 20KHz ultrasonic system in power output max to 15KW, which achieves the welding capacity to copper cable in size max to 120mm². Machine is designed mostly for the welding of high-voltage cable. Machine applies industrial PC panel to operate and set machine with MP Sonic specially developed ultrasonic control & management operation system, providing the solution to the complex requirement and demand of application in metal welding.

Benefit

CNZHENBO
臻博机械

MP Sonic
Welding and cutting system

1. MP Sonic 15KW [ultrasonic metal welding](#) system, high welding ability in stable performance;
2. Machine manufacturing in high precision with multiple manufacturing process procedure from high glass material, ensure machine duration in stability and precision;
3. Welding motion is Linear way guided in high precision (precision as high as 0.01mm);
4. Industrial Panel PC is equipped with machine for operation control, MP Sonic intelligent operation system for easy operation, meeting high requirement in management-quality management, production management, equipment management, etc.

MP Sonic
Welding and cutting system

1. Model: [MSP-JS20150](#);
2. Power Source: 380V \pm 10%, 3P, AC, 50/60Hz;
3. Air Source: 0.6~0.8MPa;
4. Ultrasonic Frequency: 20KHz;
5. Power Output: max to KW;
6. Air: 0.6~0.8MPa;
7. Dimension:
1600*950*2088(mm).
